

RESULTS

...BECAUSE EVERYTHING ELSE IS JUST TALK

In this era of uncertainty and risk mitigation, LSI provides strength, security and value that you and your customers expect.

Financial Strength

In spite of market turmoil, LSI has remained remarkably profitable and has gained market share throughout 2008. Additionally, LSI's parent, LPS, posted significant gains in 2008 and is very well-positioned for short and long term growth. With LSI, you are extremely secure.

Experience

LSI has been a trusted name for forty years providing millions of appraisals to all of the largest lenders in the United States.

Scope

For both originators and servicers, LSI offers the broadest array of property valuations and settlement services to support faster, better and less costly loan transactions, all without adding risk to the process.

Technology and Data Security

LSI has the most sophisticated data encryption and cyber storage capabilities to meet your demands for transparency, compliance, data security and disaster recovery. Key components of LSI's information security include:

- Facilities and department entry restrictions
- Systems use restrictions
- Extensive SSL data encryption
- Firewalls that are tested via penetration testing and ethical hacks
- SAS 70 Type II, GLB & S-Ox compliance
- True business continuity and disaster recovery preparedness

Count on LSI to deliver the strongest results...because everything else is just talk.
